

## **IF YOU ARE A STUDENT**

Dear President \_\_\_\_\_,

As a student at (insert school) I am deeply concerned about antisemitism on campus. I reviewed the ADL Campus Antisemitism Report Card and was dismayed to see that (insert school) received a (insert grade) grade. I urge you to take immediate steps to improve the campus climate and ensure all students feel welcomed and safe at school.

I was so proud when I was accepted to (insert school). I have had many amazing enriching experiences as a student here. That said, the toll of antisemitism on Jewish students is deeply harmful. Myself and my fellow students have experienced antisemitism first hand (insert examples and personal stories). I plan on returning next year, but I am deeply concerned about the safety and well being of Jewish students on campus.

If you have not already, I urge you to take the following steps.

1. Speak up forcefully against antisemitism.
2. Rigorously enforce student and faculty disciplinary rules and non-harassment policies and ensure transparency regarding outcomes.
3. Investigate anti-Zionist and anti-Israel groups that glorify terrorism.
4. Create a task force or advisory group focused on campus antisemitism.
5. Update security protocols and enforce time, place, and manner restrictions.
6. Conduct trainings and incorporate antisemitism awareness into DEI.

As a student, I care deeply for this institution and hope to see the university take concrete steps to counter antisemitism and better support Jewish students before the next school year.

Best,

(insert Name)
